Pune, Maharashtra

## EXPERIENCE 5+ years

### **GS Lab**, Pune (Remote) — *Senior Software Engineer*

DECEMBER 2022 - PRESENT

Led development for A2O, ensuring SDLC compliance and crafting a React-based logistics platform with integrated maps. Developed a shared library for use in A2O and Visual Factory projects.

Successfully delivered a candidate admission flow for an edu-tech client within tight deadlines.

Managed 5+ projects for Chrome extension and Teams integration for calling services utilizing React.js, GCP, and Node.js.

### **Globant**, Pune (Remote) — *Software Engineer*

APRIL 2021 - DECEMBER 2022

Led a 5-member ASCEND agile team in integrating ALM, Teams, and JIRA tools to develop a delivery automation platform utilizing TypeScript, React, NestJS, Azure, and SQL.

Developed a Learning Link video platform with React and SignalR, achieving a 75% increase in test coverage through implementation of the React testing library. Improved project management efficiency with git rebasing strategy implementation.

### **Sungard Availability Services**, Pune (Hybrid) — *Associate Web Developer*

FEBRUARY 2019 - APRIL 2021

Managed multiple projects independently, offering mentorship and organizing knowledge-sharing sessions on industry best practices.

Achieved significant improvements in Portal UI performance by reducing build size from 15.3MB to 1.6MB, resolving login flow and widget loading issues.

Implemented a full-stack solution to streamline the company onboarding process, reducing customer onboarding time from a day to minutes using the MERN stack.

### **Zensar Technologies**, Hyderabad (On-site) — *Intern*

MARCH 2018 - JULY 2018

Acquired foundational web development skills in HTML, CSS, Python, and JavaScript, setting the stage for future growth and expertise.
