SUMMARY

Seasoned Full Stack Engineer with 6+ years of experience designing and delivering scalable, user-focused software solutions. Adept at leading cross-functional teams, optimizing development processes, and driving business success through technology. Skilled in JavaScript, React, Redux, and Node.js, with a strong track record in enhancing product quality, improving system performance, and streamlining workflows. Known for strategic problem-solving, technical expertise, and a passion for building impactful solutions.

EXPERIENCE

Senior Software Engineer

GS Lab | GAVS

📅 12/2022 - Present 📍 Pune (Remote)

A company focused on providing innovative technology solutions.

- Led development for A2O and Visual Factory projects, crafting a React-based logistics platform.
- Ensured SDLC compliance by developing shared libraries and complex Recharts visualizations.
- Delivered a candidate admission flow for an edtech client within tight deadlines.
- Managed 5+ projects for Chrome extension and Teams integration for calling services.

Software Engineer

Globant

📅 04/2021 - 12/2022 📍 Pune (Remote)

A technology services company specializing in IT solutions and consulting.

- Led a 5-member ASCEND agile team in integrating ALM, Teams, and JIRA tools.
- Developed a delivery automation platform utilizing TypeScript, React, NestJS, Azure, and SQL.
- Achieved a 75% increase in test coverage through implementation of the React testing library.
- Improved project management efficiency with git rebasing strategy implementation.

Associate Web Developer

Sungard Availability Services

📅 02/2019 - 04/2021 📍 Pune (Hybrid)

A leader in information availability ranging from cloud to managed services.

- Achieved significant improvements in Portal UI performance by reducing build size from 15.3 MB to 1.6 MB.
- Reduced onboarding time by 30% with a streamlined full-stack solution implementation.

Intern

Zensar Technologies

📅 03/2018 - 07/2018 📍 Hyderabad (On-site)

An IT services company that uses the power of technology to transform businesses.

- Acquired foundational web development skills in HTML, CSS, Python, and JavaScript.
