SUMMARY

Purpose-oriented developer with more than 4 years of experience in project management, development, performance enhancement, test coverage, and git strategy. I have a proven ability to lead teams to faster development. I am adept at sharing my knowledge and have published blog posts on Medium that have been viewed by over 500 people.

EXPERIENCE

Senior Software Engineer

GS Lab

📅 12/2022 - Present   📍 Remote
🔗 https://www.gslab.com

Service-based company with different business units

- Led 5 projects single-handedly covering planning, development, testing, and deployment
- Developed candidate admission flow end-to-end within a short period of 2 weeks wherein I had to adapt to change quickly to meet the business goals

Software Engineer

Globant

📅 04/2021 - 12/2022   📍 Remote
🔗 https://www.globant.com/

- Service based company with 30000+ employees and 1000+ active projects
- Drove React testing library setup to increase the test coverage by 75%
- Introduced the git rebasing strategy to have better commit history
- Led an agile team of 5 members to design, develop and integrate Azure functions for various automation delivery stages
- Wrote technical blogs on the company's official Medium handle which has been viewed by over 500 people

Associate Engineer

Sungard Availability Services (Acquired by 11:11 Systems)

📅 02/2019 - 04/2021   📍 Remote
🔗 https://1111systems.com/resources/1111-systems-completes-acquisition-of-sungard-as-cm/

- An Information Technology Disaster Recovery product and consulting services
- I led several projects single-handedly, mentored colleagues, held technical sessions, and introduced several new practices
- Improved application load time, memory usage by reducing the build size from 15.3 MB to 1.6 MB and implementing lazy loading
- Developed a user interface to onboard organizations which reduced the customer onboarding time from a day to a few minutes

Project Trainee

Zensar Technologies

📅 03/2018 - 07/2018   📍 Hyderabad
🔗 https://www.zensar.com/

A digital solution and technology services company.

- Laid the foundation for a career as a web developer by learning technologies such as HTML, CSS, Python, and JavaScript.

TECH STACK

Javascript / Typescript

HTML / CSS / Tailwind / MUI
